

**Table of Contents**

<b>INTEGRATED PEST MANAGEMENT, DEGREE DAYS</b>	<b>1</b>
<b>PESTICIDE SAFETY AND APPLICATION</b>	<b>2</b>
Handling and Storage of Pesticides.....	2
Protective Clothing and Equipment.....	3
Guidelines for Disposal of Pesticides and Empty Containers.....	13
Drift Control and Volatility of Pesticides.....	14
Pesticide Laws, Regulations, and Restrictions.....	18
Community Right To Know (SARA Title III).....	19
Worker Protection Standard for Agricultural Pesticides.....	21
Fungicides and Bactericides.....	29
Insecticides.....	39
Pesticide Hazard to Honey Bees.....	50
Efficacy.....	51
Relative Toxicity to Orchard Predators.....	57
Methods of Spray Volume Calibration and Sprayer Calibration.....	59
<b>CHEMICAL CONTROL OF DISEASES AND INSECTS</b>	<b>61</b>
Bearing Apple Orchards.....	61
Post-Harvest Disease and Fruit Scald Control.....	84
Nonbearing Apple Orchards.....	85
Apple Insect Life Cycles.....	88
Cicada Emergence Map.....	91
Apple Diseases.....	92
Pears.....	98
Peaches and Nectarines.....	102
Peach Insect Life Cycles.....	112
Peach Diseases.....	113
Plums.....	117
Cherries (Sweet and Sour).....	120
<b>CHEMICAL CONTROL OF WEEDS</b>	<b>124</b>
Orchard Weed Control.....	124
Application Equipment.....	124
Sprayer Calibration.....	125
Herbicide Selection.....	127
Herbicide Recommendations.....	132
Effectiveness of Herbicides.....	133
Apples and Pears.....	137
Stone Fruits.....	139
<b>GROWTH REGULATORS FOR TREE FRUITS</b>	<b>140</b>
Tree-Row-Volume Determination in Apple Orchards.....	140
Programs for Apples.....	142
Calculating Parts Per Million (PPM).....	151
<b>WILDLIFE CONTROL PROGRAMS</b>	<b>153</b>
<b>ORCHARD NUTRITIONAL PROGRAMS</b>	<b>156</b>
<b>NEMATODE MANAGEMENT</b>	<b>159</b>
<b>PREHARVEST AND RESTRICTED ENTRY INTERVALS</b>	<b>163</b>
<b>DEGREE-DAY TABLES</b>	<b>167</b>
<b>INDEX</b>	<b>169</b>
